

Itema opens its new Surat Service Center and further strengthens its presence in the region.

Surat, India – On November 26, Itema has officially inaugurated its new Surat Service Center during a ceremony attended by customers and partners from across the region.

Itema has been operating in India since 2002 through a fully established branch with more than 50 employees, offering comprehensive sales, after-sales, technical support, and advanced repair services. This solid local presence has enabled the company to provide the highest service standards to its valued customers throughout the Indian market.

In recent years, Itema has recorded remarkable growth in India, with a substantial contribution coming from the Surat region. Here, Itema stands out as the leading supplier of high-end rapier weaving technology, chosen by local weavers for the exceptional versatility and superior textile performance of its machines. These strengths allow Surat weavers to produce at best their fancy, sophisticated and fashionable Saree and women apparel fabrics.

In fact, as **Sameer Kulkarni – Itema Weaving India Managing Director** explains “Since 2021, Itema registered in Surat an **unprecedented growth. We installed an impressive number of Itema weaving machines in region’s textile mills.** We are proud to contribute to the creation of some of the most beautiful fabrics in India and to support the talent of the Surat weavers with our advanced weaving technology.”

With the establishment of the new Surat Service Center, Itema further strengthens its presence in this strategic textile hub. The facility adds an efficient spare parts hub and a dedicated electronic repair center to the company’s already well-structured customer care and sales services.

Itema Group

Itema is an Italian leading global provider of advanced weaving solutions, including weaving machines, spare parts, and integrated services. The Company is the only manufacturer in the world to provide the top three weft insertion technologies: rapier, airjet and projectile, with an ample product portfolio and a steadfast commitment to continuous innovation and technological advancement of our weaving machines.

Itema owns Lamiflex, leading supplier of technical composite products and Schoch, leading producer of weaving accessories. The Group also has stakes in Tofflon Itema, the Italian branch of Tofflon, an Asian biopharmaceutical multinational company.

Sixty percent of Itema is held by Gianni Radici’s heirs. The remaining part is held by Arizzi and Torri families.
